

# Round I 2018 (in English)

---

## *New England Biolabs Foundation*

### *Instructions*

---

This proposal application is comprised of **two sections**.

In the **narrative section**, most of the questions and your responses have been carried over from the letter of inquiry (LOI). For certain of those questions, we have increased the space provided to you and ask that you expand upon your LOI response, as indicated in bold text. For other questions, you may choose not to make any edits to your LOI response. Please note that once you've made changes here, you will not be able to access your earlier LOI responses.

Again, if you are a local, US applicant seeking support in the area of artistic expression, please address the conservation-related questions to the extent that they are relevant to your project.

For the **appendices section**, please note the file size limitations on the documents to be uploaded.

*HELPFUL TIP: Remember you can save your work as a draft and return to work on it later by simply logging back in, following the link on our website. Please contact us at [info@nebf.org](mailto:info@nebf.org) with any questions or comments. Good luck!*
